SUMMARY

Passionate and dedicated software developer with experience in front-end frameworks. Known for delivering high-quality code and innovative solutions, I thrive in dynamic environments and am committed to continuous learning and improvement. My expertise in front-end technologies and a strong focus on user experience allow me to create engaging and intuitive web applications. I am eager to contribute my skills and enthusiasm to a forward-thinking team.

Experience

Software Engineer   June 2023 - Present

Syntiaro solution private limited

- Specialized in full stack development, proficient in delivering user-friendly interfaces using frameworks like React.js, Next.js, and Node.js.
- Developed advanced web applications including POS software for restaurant management, an employee tracker system, and the company website.
- Deployed applications on Firebase and AWS, ensuring secure and scalable hosting environments.
- Collaborated with cross-functional teams to understand project requirements, provide technical solutions, and ensure the timely delivery of high-quality software products.

PROJECT

POS System

Role : Full Stack Developer

Technologies Used : React js, Node js, Redux, Bootstrap, Material-UI, MySQL

Responsibilities:

- Developed user interfaces for food management, order management, and role-based access using React.js, Redux, Bootstrap, and Material-UI.
- Built APIs in Node.js for managing food, inventory, vendors, and different user roles such as super admin, technician, store admin, and user.
- Deployed the application using Firebase, ensuring a secure and scalable hosting environment.

Employee Tracker

Role : Full Stack Developer

Technologies Used : React.js, Node js, Redux, Bootstrap, Material-UI, mongoDB

Responsibilities :

- Developed user interfaces for employee management, admin dashboard, daily attendance, leave management, and role management using React.js, Redux, Bootstrap, and Material-UI.
- Built APIs in Node.js to handle functionalities for employee data, attendance tracking, leave requests, and role-based access control.
- Deployed the application using aws, ensuring a secure and scalable hosting environment.

Website - UBS Bill

Focused on front-end development using Next.js, specializing in designing responsive layouts with a mobile-first approach for seamless cross-device compatibility.

Role : Frontend Developer

Technology Used : NextJS, Material UI, MongoDB

EDUCATION

Bachelor of Engineering E&TC   Jun 2017 - May 2022

- Completed Bachelor of Engineering from Modern Education Society College of Engineering pune.
- CGPA : 7.35

Higher Secondary   Jun 2016 - Mar 2017

- Passed out 12th from GSM
- Percentage : 71.85%

Secondary School   Jun 2016 - Mar 2017

- Passed out 10th from GSM
- Percentage : 92.00%

Technical Skills

Languages	Frameworks and Libraries:	Database	Technologies and Tools:
- HTML - CSS - JavaScript - Core Java - C - C++	- React.js - Node.js - Next.js - Redux - Bootstrap - Tailwind	- Mysql - MongoDB	- Mern Stack - Firebase - Github - Jira - VS code

---

Languages

- English , Hindi , Marathi

Strengths

- Highly dedicated towards coding
- Quick learner with the ability to rapidly adapt to new technologies and frameworks.
- Strong problem-solving skills.
- Excellent team player with good communication skills.
- Proven ability to manage multiple tasks and projects simultaneously, ensuring timely delivery
